- Xxx Consulting Firm For General Electric – Access granted to General Electric [facilities]
- Independently completed large-scale printing jobs and the management to spread flyers across a numerous amount of University buildings.
- Work as Front Desk Attendant and focus on assisting all merits with a variety of needs
- DISCOVERED A WAY TO REVIVE DROWNED YELLOW JACKETS (VESPULA GERMANICA)
- Awarded Employee of the Month in November 2015 and was taken out to lunch exclusively with the top executives in the building.
- In charge of filing paperwork from company purchases.
- (Grocery Store) Cashier – Checked-out and bagged items, memorized 120 PLU codes. Held a growing knowledge of produce attributes and how each item is prepared. Also was encouraged to live a healthy lifestyle to best serve the customers questions.
- Framer – Assisted in building 4 large homes in a 4 month period. The average cost of each house was over \$300,000. Performed hard physical labor for 12 hours a day in all climates.
- Delievery [sic] driver – Was required to work fast while being safe.
- Promoted from a janitor to the lead of the gallon bottling line
- (EE Senior) Know the resistor color code, and can use a soldering iron. Have remotely logged into a linux machine using SSH protocols.
- Develop a model for yogurt flow through a pipe

Awards, Scholarships, and Honors

- Featured in [Newspaper] scholarship article, Basketball Academic All-State (year), and received a personal letter from Mayor [name] congratulating me on my work ethic.
- ...Pepsi Corporation scholarship, Sweet Candy scholarship

- Here's a memorable resume:
 - Education:
 - xxx Early College High School
 - Attended: August 2009-June 2012
 - Took College Classes and High School Classes concurrently
 - Took a course on HTML 5

- yyy Community College
 - Attended: August 2009-June 2012
 - Took College Classes and High School Classes concurrently
 - Took a course on HTML 5
- zzz Early College High School
 - Attended: August 2012-August 2013
 - Took College Classes and High School Classes concurrently
- www Community College
- vvv University (Presently Attending)
- Experience:
 - *Computer Experience*
 - (nothing underneath...continued on next page...)

Projects

- Working on a 'Compliment Shooter' that incorporates motion detectors, a Raspberry Pi (running Python), and speakers to randomly issue a compliment as a person triggers the sensor
- Isolated essential oils from orange peels, cloves, anise – separated and concentrated precious oils from orange and grape fruit
- Achieved 1st place team in the Pineapple Express Design Competition
- DESIGNED AND BUILT A SELF PROPELLED WASHING MACHINE FOR THIRD-WORLD COUNTRIES

Intro

- I am a senior that will be graduating with a Bachelors of Science in Engineering in May of 2016. Upon graduation I plan to work as a full-time engineer in order to gain the first-hand experience needed to get me where I would like to eventually end up. I believe that by acquiring more real-world experience will put me in a position to either attend a highly regarded graduate program, move upward within my field, or even venture into a parallel position in a different field. At this moment I am not fixed on a particular field of study to work in for many things intrigue me and am always open to acquiring knowledge. Beyond graduation and starting my career I hope to one day be in a position that allows me to make a change in the world, whether that be by working for a company or starting one of my own. I just want to surround myself with innovative minds.
 - Doesn't actually specify major until the top of page 2.
- Objective: To complete a PhD in Electrical & Computer Engineering at [school] and then get accepted to an MD of Psychiatry.
- BFA in Ballet, Minor in Computer Science

Other

- I am very good with puzzles and can solve any Rubix Cube no matter how big or small.
- Led the Faculty Cricket Team and won Interfaculty Cricket Tournament.
- Certified Barbecue Judge (Kansas City Barbeque Society)
- Enjoy a new found hobby of a healthy lifestyle alongside my mother
- Can make a superb cappuccino.
- Float animatronics – Designed and welded four animatronic figures (and one delicious-looking pie)
- Served as the Sunday School President of my religion
